How to Sell - Collector Cars

Michener Allen's Annual Collector Car Auction is held every July at our Calgary facility since 2000. Our auction takes place midafternoon following our regular Automotive Auction.

Michener Allen provides a large big top tent and indoor storage for most collector cars. All vehicles are run through the auction lanes and are available for online bidding giving your vehicles the capability to be sold worldwide. Reaching your target audience for collector cars is a large part of our service to you as a seller. With our extensive marketing program which includes radio, print and our interactive website, your consignment will receive great exposure. In order to maximize your dollar return, we strongly suggest contacting one of experienced sales representatives to inquire about exposure in our marketing campaign which includes our color brochure.

When consigning through Michener Allen Auctioneering Ltd., you can start the process by filing out the online consignment form in the drop down menu of "HOW TO SELL" or simply bring your collector car to our Calgary Michener Allen office (see contact info for locations). We require proof of ownership to enter into a consignment agreement which outlines the sale date, ownership particulars, commissions and all applicable fees. Once auction is complete, generally the consignments are paid out within 10 business days.
