

# How to sell at the auction

The best way to sell your vehicle, RV, equipment or miscellaneous items conclusively is to consign it through our automotive and/or industrial auctions.

With our extensive marketing program which includes radio, print and our interactive website, your consignment will receive considerable exposure.

When consigning through Michener Allen Auctioneering Ltd., we require proof of ownership to enter into a consignment agreement which outlines a sale date, ownership particulars, commissions and all applicable fees. Once auction is complete, generally the automotive consignments are paid out within 10 business days, and industrial consignments within 21 business days.

Any of our Michener Allen Sales team will be happy to answer any questions you may have in selling your automotive, RV, or industrial piece of equipment.
