LIMITED EXTENDED WARRANTY POLICY AND TERMS AS OF April 1 2009
 We take great pride in our work and want the results to be to your satisfaction. For that reason we offer a limited warranty on all repairs we performed on this Work Order for THIRTY-SIX MONTHS or 80,000 KILOMETERS, whichever comes first, subject to the terms.
 If during the warranty period there is a failure or incorrect operation of this vehicle due to a part we installed or labor we performed we will, upon delivery of the vehicle to our usual place of business, repair or replace the defective part or rework the labor at no additional charge. If a defect exists within the warranty period the warranty will not expire until the defect has been fixed. The warranty period will also be extended if the warranty repairs have not been performed due to delays caused by circumstances beyond the control of the buyer.
 An Annual Peace of mind Vehicle Inspection performed at Smart Automotive is required to keep warranties valid. This is for either 24,000 kilometers or 365 days from date of repair.
 Commercial vehicles are not covered under this warranty. Warranty is not transferable.
 Any stored tires needs to be picked up by May 31 for winter storage and October 31 for summer storage. Tires not picked up will be discarded. It is the responsibility of the customer to have the wheels cleaned prior to storage.
 NOTE: If Oversize tires have been installed on a Customers Vehicle - They are responsible for any powertrain or spare tires issues.
 All wheels need to be re-torqued 100 kilometers after installation. Additional fees may be charged.
 Manufacturers as well as Smart Auto & Tirecraft have the right to refuse warranty on any product sold or installed that shows sign of abuse or neglect.

THANK-YOU FOR CHOOSING SMART AUTO & TIRECRAFT FOR ALL YOUR VEHICLE NEEDS

LIMITED EXTENDED WARRANTY POLICY AND TERMS AS OF April 1 2009

We take great pride in our work and want the results to be to your satisfaction. For that reason we offer a limited warranty on all repairs we performed on this Work Order for THIRTY-SIX MONTHS or 60,000 KILOMETERS, whichever comes first, subject to the terms.
If during the warranty period there is a failure or incorrect operation of this vehicle due to a part we installed or labor we performed we will, upon delivery of the vehicle to our usual place of business, repair or replace the defective part or rework the labor at no additional charge. If a defect exists within the warranty period the warranty will not expire until the defect has been fixed. The warranty period will also be extended if the warranty repairs have not been performed due to delays caused by circumstances beyond the control of the buyer.

An Annual Peace of mind Vehicle Inspection performed at Smart Automotive is required to keep warranties valid. This is for either 24,000 kilometers or 365 days from date of repair.
Commercial vehicles are not covered under this warranty. Warranty is not transferable.

Any stored tires needs to be picked up by May 31 for winter storage and October 31 for summer storage. Tires not picked up will be discarded. It is the responsibility of the customer to have the wheels cleaned prior to storage.
NOTE: If Oversize tires have been installed on a Customers Vehicle - They are responsible for any powertrain or spare tires issues.
All wheels need to be re-torqued 100 kilometers after installation. Additional fees may be charged.
Manufacturers as well as Smart Auto & Tirecraft have the right to refuse warranty on any product sold or installed that shows sign of abuse or neglect.
