Comments 1956 Pontiac Pathfinder Deluxe 2 door station wagon. This is quite a rare vehicle. As per GM Historical (can be viewed in the "documents" tab), it is number 223 of 361 produced of this model. Very rare car. It was born with a 6 cylinder engine and so that is what is in there now. The 6 cylinder has been dressed up and features a finned aluminum valve cover, tappet cover, air breather, and oil filter cover. The six is fitted with a Fenton Header, and full dual exhaust. It has no mufflers. The wagon has a little bark to it. It has power steering, as well as power disc brakes, and rack and pinion steering. The body was taken off and the frame was powder coated as was all the front under hood sheet metal, including inner fender panels, and rad bar etc. It has a new aluminum rad. New interior. Recently installed NOS 56 Pontiac wagon tail light

housings and lenses. Extremely hard to find. Add this ultra-rare Pontiac to your collection
